Specifications

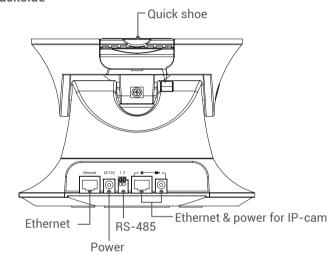

Model name	AREC TP-100 Auto-Tracking System
Camera	
Suggested IP-cam	AREC CI-200 18X Network Camera
Acceptable IP-cam format	H.264, up to 1080p@30fps
Other connector	Standard camera quick shoe- 1/4" 20 UNC
Mount	
Angle adjustment	Continuous 355 degree pan / 60 degree tilt
Tracking distance	2~12m
Manual control	■ IP or AREC web-based video switcher ■ RS-485 console: Pelco-D/ Pelco-P potocol
Configuration	 Auto/manual control switch tilt tracking switch Tracking sensitivity adjustment User-defined target offset position 3 routes & 15 preset points for auto patrol function 1 users access control via account/password User-defined device name and firmware upgrade
Power supply	■ DC12V 1A (mount) ■ DC12V 1.5A (mount+ network camera)
Temperature	0~50°C
Bearing capacity	800g
Interface	■ RJ-45 *2: for IP-cam or external IP -based devices ■ Power*2: IP-cam and power
Positioner	
Control buttons	Stop tracking and mute
Mic. distance	12m R
Power supply	AAA battery*2
Power consumption	6 hours (Duracell alkaline battery)
