AREC Media Capture, AV-over-IP Total Solutions

With AREC AV-over-IP Total Solution, it becomes easy to capture, switch, record, stream and deliver video content to a wider audience, whether live or on demand, locally or remotely.

For different scenarios and application requirements, AREC AV-over-IP Total Solution combines an AREC Media Station, Auto-Tracking Camera, VOD Platform and related accessories to provide the most flexible and effective solution.

AREC Media Station

AREC Auto-Tracking Camera

AREC VOD Platform

AREC Media Stations

AREC Media Station supports multiple Full HD video and audio source capturing, mixing, switching, recording and live streaming.

Capturing & Video Production

Real-Time Assistant in Video Making

Built-in Online Director of AREC Media Stations allows users to be in control of their recording/streaming. With one touch it's possible to switch between sources, add or remove logos, backgrounds and overlays, change layouts and themes.

Live Streaming

Broadcast Your Mixed Video

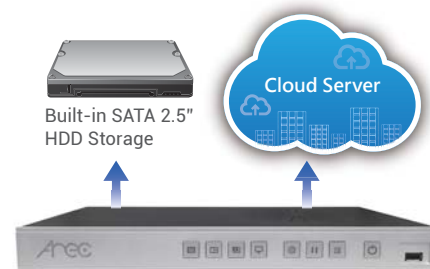

AREC Media Station can stream mixed video to up to 2 platforms simultaneously, such as YouTube, Facebook, Twitch etc.

Recording & Backup

Backup Your Recordings

AREC Media Station protects your videos by saving them on an internal 1TB hard drive. To increase security, AREC Media Stations can automatically backup/upload recordings to AREC VOD Platform, FTP, SFTP, Opencast and others.

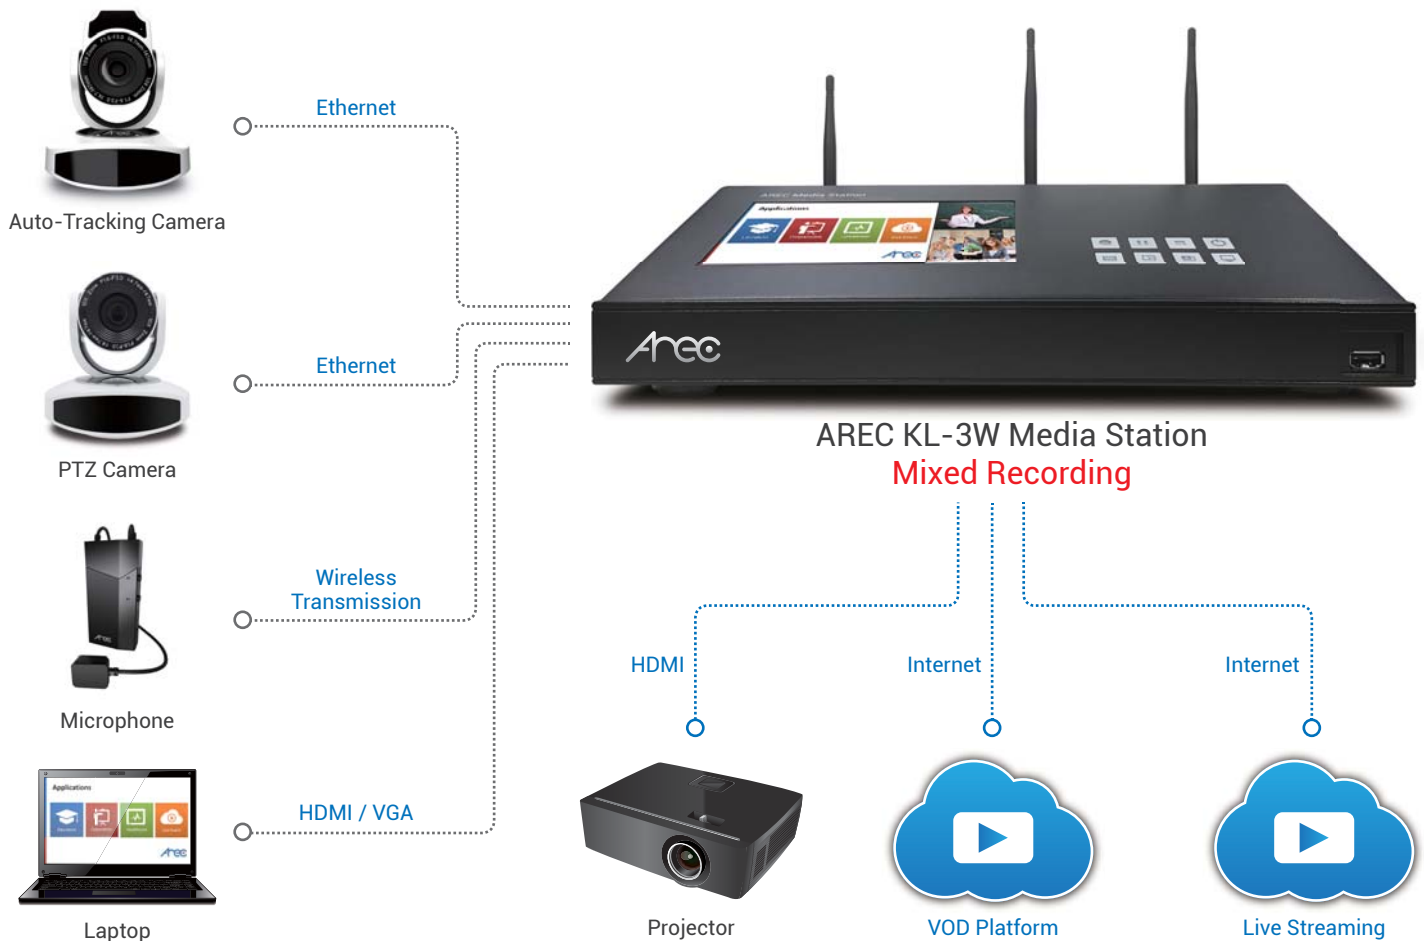

AREC Portable Set

The unique compact design of AREC Solutions allows users to bring the set wherever it's needed. Different options are available: Portable set of Media Station, Wireless Cameras and Microphone, and Auto-Tracking Set (Media Station, Auto-tracking Camera, Positioner/Microphone and PTZ camera).

AREC Auto-Tracking PTZ Camera

Smooth Auto-Tracking Performance

AREC CI-T21H Camera utilizes AREC's motion-sensitive and smooth tracking technology, ensuring that presenter is always in close-up, even if that person turns back to the audience or walks back.

AREC Media Center

Make Video Content Management Easy

Via intuitive interface of AREC MSR 3.0, users can publish video content, manage and edit video information, add bookmarks, and manage user accounts. In addition, AREC MSR 3.0 player allows viewers to select content layout freely.
